JCM Postural Management Workshop: Specialist Seating

This workshop allows professionals the opportunity to enhance their clinical reasoning skills in determining the optimal seating and positioning strategy. It applies evidence-based knowledge to seating and posture which underpins the research and development process. Participants also have the opportunity to reflect on their own experience and to develop the practical skills to complete a comprehensive holistic seating assessment. Participants also gain practical knowledge and skills with seating and positioning with hands on practice to develop skills further.

Who Is This Workshop For?

This workshop is primarily for healthcare professionals involved in seating for people with complex disabilities, but would be beneficial also for any healthcare professional interested in learning about assessing, issuing and setting up postural equipment for children, young people or adults with complex physical disabilities.

Professional Groups Who Would Benefit From This Course Include:

- Physiotherapists
- Occupational Therapists
- Occupational Therapy or Physiotherapy Assistants or Technical Instructors
- Other therapy staff, e.g. art, speech and language, play, who have postural management responsibilities
- Registered nursing staff with postural management roles or responsibilities
- Students welcome
