

Monoflex™ Chest Support

For users who need strong but comfortable abdominal or chest support, the Monoflex™ is the perfect dynamic solution. Available in two styles.

One-Piece Underarm Release

Single pad for more surface area and stretch, with front-pull adjustment.

Proprietary high-strength Swivel Buckle on both sides provides reliable, secure closure and two-sided adjustment.

Two-Piece Center Release

Reduces bulk under the arms and fits under lateral supports for added stability. Great for independent users.

Center Swivel Buckle equalizes tension.

High-strength elastic padding provides just the right amount of stretch for comfort, while stabilizing even those with strong spastic tone. Double-tapered shape distributes pressure across the midsection while maintaining free arm movement. When worn on upper abdomen, it can improve breath control and speech. Durable, machine-washable material designed for the most demanding users.

Part Numbers

Size	One-Piece Underarm Release	Two-Piece Center Release
XS	SH120XS	SH122XS
S	SH120S	SH122S
M	SH120M	SH122M
